

A Message from the Deep Creek Lake Sailing Association

Membership Update on Capital Campaign

We have had a robust start to our capital campaign to rebuild our clubhouse and have already received indications of financial support in excess of **\$900,000.00** toward our \$3.5 million goal including five six-figure contributions. While this is an encouraging start, we still have a long road to reach our goal and encourage all members to contribute if they are able.

We are pleased so many families were able to attend our informational meeting Saturday morning. For those who were not able to attend, your informational packet should be on its way to you via mail and is also posted on the club's website below.

Please mark your calendars for **Saturday, July 31, 2021, at 9 am** when we will hold a second informational meeting, particularly for those who were unable to attend this past Saturday, so we can share the same information with you as well as update all members on where we stand with the capital campaign.

LAUNCHING OUR FUTURE, PRESERVING OUR LEGACY
